The " Réseau Sentinelles " or Sentinelles Network  
(a.k.a. French Communicable Diseases Computer Network)  
is a network of general practitioners,  
working throughout the metropolitan regions of France.  
This group includes 1307 physicians, including 429 involved in the clinical  
surveillance activity, enabling the achievement of weekly newsletters.  
This network is developed in cooperation between Inserm, Université Pierre  
et Marie Curie (UPMC) and the Institut de Veille Sanitaire (InVS).
