The " Réseau Sentinelles " or Sentinelles Network  
(a.k.a. French Communicable Diseases Computer Network)  
is a network of general practitioners,  
working throughout the metropolitan regions of France.

This group includes 1270 physicians, including 442 involved in the clinical surveillance activity, enabling the achievement of weekly newsletters.  
This network is developed in cooperation between Inserm, Université Pierre et Marie Curie (UPMC) and the Institut de Veille Sanitaire (InVS).
