The " Réseau Sentinelles" or Sentinelles Network
(a.k.a. French Communicable Diseases Computer Network)
is a network of 1,413 physicians working throughout the metropolitan regions
of France including 555 involved in the clinical surveillance activity
(440 general practitioners and 115 pediatricians)
enabling the achievement of weekly newsletters.

This network is developed in cooperation between Inserm, Université Pierre
et Marie Curie (UPMC) and the Agence Santé publique France.
